

The background of the image is a sepia-toned illustration of a mountain landscape. In the foreground, there are dark, silhouetted evergreen trees on the left and right. The middle ground features rugged, rocky terrain with patches of snow or light-colored rock. In the background, a range of mountains is visible, with the highest peaks covered in snow and partially hidden by soft, hazy clouds. The overall style is that of a vintage postcard or a commemorative book cover.

Souvenir
of
The Rockies

Canadian Rockies

The world famed Rocky Mountains, for grandeur and varied scenery, are unsurpassed, and need little introduction. Half a century ago they were little known, but since then the C.P.R. have accomplished the almost impossible task of running their line through the Mountains, and now no better scenery is to be found anywhere. From Banff right to Vancouver the picture is magnificent and bewildering. The large snow-capped peaks, beautiful valleys and lakes, have well earned them the name of the "Wonderland of Canada." With a splendid string of Hotels at various points, the Rockies have become one of the greatest tourist centres in the world.
